emporia

Emporia Classic Smart EV Charger

Award-winning Level 2 home charging — fast, smart, and **built for any EV** and any home. Easy installation, universal compatibility, and reliable overnight charging.

Charge Up to 7x Faster Than a Regular Outlet

Level 2 charging delivers up to 48 amps — so your EV wakes up full every morning, no waiting around.

Control It From Your Phone

Set schedules, check charging status, and manage everything from the free Emporia app — at home or across the country.

Save Money on Your Electric Bill

Auto-schedule charging for nights and weekends when electricity rates are lowest. Less effort, lower bills.

Charge With Your Solar Power

Pair with the Vue monitor to charge your car with your own solar energy instead of sending it back to the grid.

Built for Any Weather

NEMA 4-rated for indoor or outdoor installation. Rain, heat, cold — it handles whatever your garage throws at it.

Works With Every EV

Tesla? F-150 Lightning? Rivian? Doesn't matter. Available with both NACS and J1772 connectors. It just works.

"Think of this as your own private gas station at home — except it's faster, cheaper, and you never have to drive out of your way. The award-winning Emporia Classic charges any EV overnight and lets you schedule charging for when electricity is cheapest."
